

Burlington[®]

Burlington enables homeowners to create bathrooms with the authentic forms and finishes from pivotal periods of design but made to modern quality and performance standards.

Burlington brings the finest quality complete traditional bathroom ranges with genuine and inspired designs from the late 19th Century through to the 1930s. In an age of minimalism and stark, functional spaces, Burlington offers a sanctuary for those who seek the comfort, familiarity and reassurance of more traditional styling. Burlington's collections include everything you need; brassware, ceramics, furniture, baths, shower enclosures, towel radiators and accessories.

ELEGANT EDWARDIAN

Classic. Soothing. Refreshing.

Famed for their restorative properties, Edwardian design took inspiration from the styles of the previous centuries whilst focusing on making comfort a high priority. Warming neutrals lay the perfect foundation with their soft, balanced hues helping to create a lighter cosy homeliness. A perfect pairing with expressive coloured tiles or patterned wallpaper, Edwardian style provides complete contentment without having to compromise on a look that dates.

REGAL WCs

At Burlington we've created a range that's taller than average sanitaryware. Regal WC pans are 60mm higher than the standard option.

At 480mm high the taller WC pan ensures the knee angle remains at approximately 90 degrees whilst in use, which is the correct seating position. The taller WC provides a more comfortable use for taller people and the elderly whilst ensuring your WC is functional as well as beautiful too.

BASINS

From large double basins to compact cloakroom options, Burlington offers a wide range of basins with many styles and sizes perfectly formed to suit your traditional bathroom.

STYLE OPTIONS

Burlington has a wide range of Basin options. Select your style below.

Classic

The Classic collection from Burlington is beautifully formed, available in rectangular or square designs, complete with an invisible waste option.

Edwardian

The Edwardian collection is the ultimate in traditional bathrooms with structured corners and angular designs, the feel is unapologetic and proud.

Victorian

Delicate and refined, the simplicity of this basin is stunning whilst its versatility allows you to continue the style through your home and brings an air of luxury.

Contemporary

As the name suggests, the Contemporary collection is styled on the elegance of past times but with a modern day twist. Simplistic, structured lines form the basis for this striking ceramic collection.

Contemporary Upstands

The Contemporary Upstand collection offers a classic structured look with a modern twist, combining a classic upstand with the clean lines of a contemporary basin.

Cloakroom

A choice of traditionally designed cloakroom basins to achieve a consistent look throughout the home.

FURNITURE

A range of beautifully traditional furniture solutions to add classic style and sophisticated British elegance to your bathroom. Choose from freestanding in either square or curved design, cloakroom or fully fitted options to create the most functional space to suit your individual needs.

KEY FEATURES

Our furniture solutions are made from the finest materials and offer innovative features and smart details. Perfectly suited for the bathroom environment.

Freestanding

Chalfont

Riviera

The plinths of the freestanding furniture are crafted from a waterproof high density material - providing extra protection and giving peace of mind that wet floors will not lead to damage.

Available in 4 sizes and 3 colours with the design option to have wall hung or floor standing by using additional legs available in wood with matching paint finishes or in brass with a Chrome, Gold or Nickel finish to compliment the Burlington brassware ranges.

Available as floor-standing in 2 sizes and 3 colours with matching handles available in Chrome or Gold finishes.

Each of our Classic furniture pieces are prepared with 5 layers of primer featuring UV stabilisation to minimise colour fading from exposure to sunlight. The painted top coat is then applied for a glorious depth of colour.

All of our Chalfont furniture pieces have a high quality paint finish and are prepared with 3 layers of primer featuring UV stabilisation to minimise colour fading from exposure to sunlight. Followed by 2 layers of top coat for a glorious depth of colour.

Made from materials specifically selected to withstand the rigours of life in the bathroom where temperature and humidity can vary widely.

Each part is coated with five layers of primer, before the final coating is applied; this top coat is UV-resistant to reduce the effects of exposure to bright sunlight.

Unlike conventional fitted furniture, our units offer full floor to height storage providing increased space for all your bathroom cosmetics and accessories.

Chalfont furniture units pair exclusively with Burlington's natural stone roll top basins. Natural stone's beautiful and tactile appearance is also extremely hard wearing and minor scuffs and scrapes are, in most cases, easily polished and smoothed away. These basins are supplied undrilled for your preferred choice of 1, 2 or 3 tap holes.

Riviera vanity units are supplied fully assembled for simple installation, with adjustable feet to ensure stability and protect them from wet floors.

Minerva Basins

Minerva basins fit perfectly with your chosen furniture unit. Should you opt for a fitted furniture look, a Minerva worktop can be chosen to fit the length of your furniture units.

Tap holes

Minerva® worktops are supplied with an integrated bowl with overflow, and no tap holes. Tap holes are drilled by the installer in the required position and configuration. A template is provided with the Minerva® tops indicating tap hole positions and sizes.

Routine Cleaning

Minerva® does not require any specialist cleaning regimes, most dirt will easily wipe off with a damp cloth and soapy water. The work surface should then be rinsed with clean water and wiped dry. Persistent marks can be removed by using a mild abrasive cleaner, but harsh scouring powders should be avoided.

Staining

Minerva®, unlike marble and granite, is not porous and will resist most household chemicals including alcohol and cosmetics, however, some chemicals and strong dyes can cause damage and discolouration. If spillage occurs, wipe off immediately and rinse the area thoroughly.

Minerva® Care Kit

To restore your Minerva® work top to its original best use the Care Kit to buff out all tiny scratches and scuffs. The kit contains all the sanding / buffing materials and liquids required.

PAINT YOUR OWN

Should you wish, our Matt White furniture is supplied ready for you to paint, so you can transform your entire bathroom into your individual colour scheme. We've chosen some Farrow & Ball colours as suggestions displayed below. We recommend using a water based primer before an egg shell paint finish for the best effect.

BRASSWARE

Burlington brassware can be customised with a choice of 4 tap heads; Claremont, Birkenhead, Anglesey and Kensington.

We supply every tap with two Neoperl devices: A flow straightener, which is for use with low water pressures and an aerator, which is for use with high water pressures.

KEY FEATURES

Burlington brassware products have a range of key features across basin and bath taps, shown below.

Swivelling Spouts

All our bath fillers and bath shower mixer spouts swivel - so you don't have the spout in your way when you shower.

Angled Mixers

All our bath shower mixers are available in an 'angled' version.

S Adjuster

The S adjuster allows the telephone handset to be positioned over the bath. The bath shower mixer can be installed with or without the 'S adjuster'.

Bridge Mixers

Our bridge basin mixer has a swivelling spout and allows you to have mixed hot & cold water, whilst using a two taphole configuration.

WATER PRESSURE

Our taps are designed to deliver the following maximum flows of water, regardless of the incoming water pressure:

Basin taps: 13L per minute

Bath tap: 14L per minute

Bath shower mixer: 22L per minute

Normal tap

Water flow in a normal traditional tap.

Low pressure

Low pressure water flow with a Burlington tap using a flow straightener.

High pressure

High pressure water flow with a Burlington tap using an aerator.

Finish Options

A collection of our wastes are available in 3 distinct finishes.

These can be matched across the whole of the Burlington collection to create your perfect bathroom.

SHOWERING

Our range of showers provide extensive options to create a perfect showering solution. Whether you prefer showering over a bath or within an enclosure, our range of thermostatic valves offer safe and controllable showering for the entire family. Partner with a wide range of enclosure styles with corresponding trays.

KEY FEATURES

All our showers come as standard with the below key features.

One Way Water

Our non-return valves ensure the flow of water in only one direction, ensuring heating efficiency, preventing siphonage of contaminated water and keeping your shower cartridge in excellent condition for longer.

Airburst Shower Heads

By combining air and water, the pressure inside the shower head is increased. The power of a traditional shower head with up to 33% water saved.

Thermostatic Showering

Within the valve there is an automatic adjuster which maintains temperature by adjusting the flow of each supply. This is useful in guarding against the possibility of scalding. If for instance, someone flushes a WC whilst you are showering, the flow of hot water will immediately be closed down to compensate for the reduced cold water flow.

STYLE OPTIONS

Our showers are available with concealed or exposed valves.

Concealed

A concealed shower valve creates a clean finish as the valve is hidden behind the wall.

Exposed

An exposed shower valve is fitted onto the wall and has a more traditional feel.
